21 December 1955

MEMORANDUM FOR: Director of Training

SUBJECT : Ceiling for Junior Officer Trainee Program.

REFERENCE : Memo dtd 13 Oct 55 to DDCI fr ADD/S, subj: "Junior Officer Trainee Program."

1. Confirming our oral discussions of the procedures which should be put into effect to control the ceiling for the Junior Officer Trainee Program, you are authorized to recruit personnel and enter them on duty for this Program without regard to the ceiling which has been fixed. In the absence of much greater success than our past experience indicates, the fixed ceiling should come reasonably close to satisfying the needs of the Program. However, if at any given time there is an indication that JOT's on duty are likely to approach 100 I should be notified immediately and appropriate action will then be considered.

2. This authority in no way supersedes or alters the provisions of the referenced memorandum. The JOT table of organization must be kept "pure", and under no circumstances are personnel to be carried on this T/O who have completed their training or who are not otherwise bona fide JOT's.
